Under 2 Focus:

Our under-two child has become confident in exploring the Centre environment. She has shown interest in the activities done in the Centre such as water play, playdough, messy play and painting. She is in the process of developing her self-help skills and communication skills through working alongside over 2 children. She also liked exploring outdoor play area such as sandpit and slides. She also has interest in manipulative toys, books, music and blocks.

Over 2 Focus

The over 2 children have been quite busy in exploring the activities related to their interests. They have taken active participation in St. Patrick's day and learnt about its significance, wearing green attire and made flowers with their hand-prints. Over 2 children also enjoyed St John's visit which has created a spark amongst them. This visit extended their knowledge about our social communities. Along with this, teachers have been extending their interest in transports and children learnt more about different modes of transport and traffic rules. Our parents have also played an essential role in their child/ren's learning and development by sharing their views and aspirations.
