Infants and Toddlers focus: -

This month our toddlers did some amazing activities. Toddlers worked alongside preschoolers doing artwork, exercising, games, etc. Toddlers are showing interests in books and storytelling this month. They are exploring a variety of books and repeatedly telling stories to each other from previous experiences. They are also exploring other curriculum areas indoors and outdoors. Extensions was done on toddlers' interest in storytelling through art activities and games. Toddlers activities include a range of mathematical learning for instance learning their colours and shapes as well.

Preschool focus: -

Thanks to our preschooler children for role modelling our toddlers during activity time and free play times this month. Preschoolers have developed their interest in books, storytelling and insects. This month our Tamariki's were seen several times digging the soil and looking for ants and worms outside. Some children are interested in connecting toys. These three interests are the majority interests observed in our preschoolers. Teachers will use technology and science activities with children to explore more on their interests. Preschoolers are also showing interest in tidying up after play and taking responsibility in setting up tables for kai. **A special farewell to Ky'Anne. She has turned 5 and starting primary school.**
