Kotahi te Kākanō, he nui ngā hua o te rākau

A tree comes from one seed but bears many fruit

This whakataukī emphasizes that in our commonality we are all different. In early learning we celebrate those differences while maintaining our relationship with each other.

This month in the nursery, we have been busy celebrating Cook Island Language Week. The children enjoyed making head bands which they decorated with different flowers. We also enjoyed a yummy shared lunch of Chopsuey. It was great to see everyone dressed up.

We welcome our new friends, who have joined us: Stelah, Devon. You are settling in well and starting to make friends. The children celebrated Cook Island Language Week by doing some activities, singing songs and dancing. It was good to see the children perform for our Cook Island Culture Day Celebration. We are working towards our Father's Day Celebration and our children are eager to give their gifts to their dads. Self-Help skills and healthy eating is a focus for us at the moment. So, keep a look out for more information.

Message from over 3's

Kia Ora and Greetings to all our parents, families/Whanau. We farewell our friends Faisaovale and Lincoln-they off on their next level of learning which is primary school. All the best, study hard and come back for a visit. Meitaki Ma'ata (Thank you very much) to all our Little Feet families for participating and getting involved with celebrating Cook Island Language Week with us. Our Tamariki are actively learning about how to keep themselves and others safe (Health & Safety), in event of fire and earthquake, interacting and socializing with other children in the room. We are also encouraging children's leadership skills by leading mat time and saying karakia. We are also waking in building our Tamariki knowledge and confidence by encouraging them to stand in front of other children to say their names, how old are they, their parents' names and where they live. What you can do to help us:

- Practice this at home: Child's name, age, parents' names and address
- Counting numbers from 1-20 forwards and backwards
