Infants and Toddlers focus: -

This month our infants and toddlers showed great interest in storytelling and books. They have listened to a variety of stories and took part in artwork that relates to stories. They have acted out character's and watched the same stories on tv. The two age groups in the Centre worked together this month so it was a good opportunity for all age groups to share experiences and help each other. We also welcome our new infant who started this month Avya. All the tamariki's were very supportive to Avya during her settling time in the Centre.

Preschool focus: -

This month some of our Preschoolers showed interest in insects as well as storytelling. Teachers have incorporated these two interests together through books. This was done through reading children stories about insects and art activities. Our storytelling interest is still evolving, and teachers are still extending their interest through artwork and acting the stories out. Preschoolers did a lot of artwork this month painting daffodil flowers, collaging, decorating and making Father's Day cups and working with natural resources. Children were also engaged in Father's Day programme, practicing their songs and dances for this event in the Centre. This was a great success. Tino Pai to all our Tamariki.
