Highlights of month of June

- Matariki Celebration
- International Yoga Day

Reminder

- Parents please ensure that your children as aged 15 months and over are up to date with their MMR vaccination. If they are not please contact your local GP.
- Parents are requested to please let other parents know that we currently have spaces for children in our Centre and would appreciate their referrals.
- Parents are reminded to read the notice board for the important information every day.

Infants and Toddlers focus: - In the month of June, Toddlers have been actively exploring indoor and outdoor areas. Some of the toddlers have developed keen interest in reading books and singing during mat times. They have been experiencing range of new resources which further developed their self-confidence and self-help skills. Toddlers have demonstrated their interest in art such as colouring, drawing and painting. They have been exploring outdoor area where they experienced obstacle courses and sand play alongside the younger children which further strengthened their confidence in taking challenges. They have further developed their communication skills through individual and group discussions and activities. They actively participated in the Matariki activities and further learnt to respect other cultures.

Preschool focus: - This month, our preschoolers had range of opportunities to further developed their literacy skills, creativity through art and craft and develop positive relationship with each other through group activities. Children further developed the strength, flexibility, self-esteem, focus and confidence by participating on International Yoga Day. Furthermore, they further learnt to respect diverse cultures during Matariki Celebration. Children made stars and baked them, collage and coloured kites, read Matariki storybooks, performed on Matariki songs, and made korowhai designs. Moreover, over two children have been developing their literacy skills through recognizing letters and numbers, discussions during mat times and reading books. They have further strengthened their muscles and motor skills through physical activities at outdoor confident and competent learners. They have also been taking leadership roles by guiding toddlers during kai time, washing their hands, setting up the tables, tidy up time which built self-confidence and positive relationship with each other.
