- Parents are reminded to read the notice board for the important information every day.

A big praise to all our children for their tremendous performance during our Christmas show. This was an awesome event. Children developed leadership and social skills throughout their performance. They were taking responsibility for their own learning environment and developed confidence.

### Highlights of month of November

- Christmas Celebration
- Excursion to Butterfly Creek

## Infants and Toddlers focus: -

This month our infants and Toddlers further extended their literacy learning through exploring insects and action songs. Children were able to communicate by sharing their knowledge about insects such as learning their names and their body parts. They had amazing opportunity to relate it to their real-life experiences by visiting Butterfly Creek.

Furthermore, our infants and toddlers explored different kinds of artwork such as collaging, painting, drawing and pasting for the Christmas Celebration. They excitedly participated in dance performances in front of their parents for children to show how capable and confident they are.

## Preschool focus: -

Our Preschoolers have been quite excited towards their trip to butterfly Creek and Christmas celebration. Tamariki enjoyed the trip with their mums and whanau. They were quite enthusiastic to explore the world of animals and insects. They shared their knowledge about animals and insects and linked it to their real-life experiences such as sharing stories of encountering insects at their home. Children had fun on train riding and crocodile feeding. This excursion provided opportunity to our tamariki to further build up understanding of our surroundings and respect towards it. Moreover, Preschoolers celebrated Christmas and participated in artwork, singing songs and dance performances in front of their parents and whanau. During this celebration, Children gained understanding about music, songs, cultural dances and further developed their confidence.
