*August's Up Coming Events 2021*  
12<sup>th</sup> India Independence Day Celebration  
26<sup>th</sup> Earthquake Drill

### **Reminder:**

Children will be dropped off and picked up by whanau from the signing table inside. As discussed in the Parents Meeting, parents are requested to assist their children to bring out their own lunch boxes and water bottle and put them nicely on the food trolley. Bags will also be put inside their cubby holes.; and same

during pick up time, that parents assist children pack their own bags. This supports the children's self-help learning. Whanau are also reminded to sign in visitor book or Scan QR CODE.

## ***Over 2's & Under 2's Message***

### **Over2**

Children had a great month of July and enjoyed a range of activities from holiday program to their interest in "What lives in Water". Our tamariki are demonstrating great interest in Octopus and are involved in great active discussion about it. Along side this, they have used paint to make octopus what they would imagine it like and used clay too to create an octopus. These learning experience enhances children's communication skills, creative and social skills. Tamariki were also engaged in literacy activity where they used play dough to make the letters and numbers. Apart from this. tamariki enjoyed play in other curriculum areas like science and dramatic play.

### **Under 2:**

Under 2 children enjoyed a range of learning encounters like painting, free play and gloop. As some children were settling in, our under twos continued to develop their relationship with each other. Tamariki were engaged in sharing resources like books, exploring resources, demonstrating their curious nature and were attempting to communicate with some new words, gestures and actions. It is wonderful to see our tamariki making discoveries and enjoying themselves.
